

And people pointed...
and people laughed...
and they made such a terrible row...
"We can see it's a bike you were trying
to build - but you obviously
didn't know *how*!" (they said!)

And they wobbled a bit to the left at first,
...then they wobbled a bit to the right.

As they wobbled

and wobbled
and wobbled about
- it was quite an
extraordin'ry
sight!!!

And then...
...they started to wobble so bad
that it made Grandad Wibberley cough...
...and one-by-one,
as they wobbled about,
- all the Wibberley people...
fell off!
